DETAILED ACTION

The amendment filed on 11 October 2006 has been entered and overcomes the rejection of claim 23.

Allowable Subject Matter

1. Claims 1-10 and 16-23 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding independent claim 1, the prior art of record neither shows nor suggest an organic EL display comprised of, in part, a supplementary electrode around the EL region, the supplementary electrode being electrically connected to the cathode, along with the rest of the limitations of the claim.

Regarding independent claim 6, the prior art of record neither shows nor suggest an organic EL display comprised of, in part, a second supplementary electrode being electrically connected to the cathode, along with the rest of the limitations of the claim.

Regarding independent claim 16, the prior art of record neither shows nor suggest an organic EL display comprised of, in part, a supplementary electrode around the EL region, the supplementary electrode being electrically connected to the cathode, along with the rest of the limitations of the claim.

Regarding independent claim 20, the response of 13 September 2006 (the perfection of the Applicant's priority date) overcomes the rejection of the claim.

Regarding independent claim 22, the prior art of record neither shows nor suggest an organic EL display comprised of, in part, a supplementary electrode at each

of the EL regions, the supplementary electrode being electrically coupled to a corresponding one of the second electrode, along with the rest of the limitations of the claim.

Due to their dependency, claims 2-5, 7-10, 17-19, 21, and 23 are necessarily allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
